

CUBE[®]: Absolute

With a minimalist design and incredible ease-of-use, the A version is perfect for domestic customers. The cover panels of the machine are in a single colour and the side panels in a single piece.

CUBE[®]: Bicolour / Branded*

In the B version, the side panels are made in two pieces in order to allow colour variations and the personalisation of the central panel even with special colours and branding.

*available on request only.

CUBE[®]: Custom*

The Custom version is available in exclusive editions with colours on request and special coatings on both the side panels and other elements such as the portafilter handle.
